

# INSTRUMENTATION & TESTING LINE LIST

- Mini PCs, Tactical Computers, Rack Mount & Blade Servers, High Performance Computers, Storage Systems & Workstations for Rugged Regs in High Shock & Vibration Environments
- Build your own PCIe Expansion System & Customization

- Miniature, High Speed Data Acquisition Systems for Acceleration, Shock, Vibration & Strain Measurements
- Ideal for Dynamic Testing in Extreme Environments
- Real-time Streaming & Distributed Data Acquisition for Airborne Applications
- Rugged Data Loggers for Crash Test, Blast Events
- Sensors - Accelerometers, Angular Rate, 6DOF

- Data Acquisition with Front-End Control Systems, Software Included with Hardware, Systems (DAQ) with Precision & High-Speed Signal Conditioning
- Rugged Data Acquisition Systems - Waterproof, Dustproof, & Shock-Resistant Up to 100G
- FREE Lifetime Support & Software Upgrades

- Vibration Controllers and Dynamic Signal Analysis ALL-IN-ONE
- Electrodynamic Shakers - 2 lbf (9 N) to 13,500 lbf (60 kN) & Power Amplifiers
- Advanced Servo hydraulic Vibration Test Systems, Slip Tables, Head Expanders
- Rotary Torsional Vibration, Multi-Axis Vibration Testing, Horizontal, Vertical & Dual Systems
- T-Film and Pad Bearings, Actuators, Hydraulic Power Supplies, Couplings

- Configurable Data Acquisition Systems
- High Speed Multi-Function Recorders
- Portable Multi-Channel Data Recorders

# INSTRUMENTATION & TESTING LINE LIST

- Turbine - Process & Testing, High Shock, Sanitary & Low Flow Applications
- Electromagnetic - Water Cycle & Process Applications
- PD - Designed to Measure Thicker Fluids
- In-line Ultrasonic - Excellent Accuracy
- Clamp-on Ultrasonic - Corrosive Fluids, for High Pressure, & Sanitary Environments

- Pressure Controllers
- Calibrators & Primary Standards
- Precision Pressure Transducers
- Digital Pressure Gauges & Indicators for a Wide Range of Applications Including OEM
- OEM Sensor Capabilities

- Precision Pressure Transducers
- 0.69" Diameter - Submersible Level Transmitters
- Wastewater Level Transmitter
- On Vehicle Pressure & Temperature Measurement
- OEM Precision Pressure Transmitters & Transducers
- Linear Position & Displacement Sensors
- Digital Pressure Gauges & Indicators

- Process automation including HMIs, Industrial PCs, PLCs, Automation & Cloud Computing Software
- Analog Signal Converters, Loop Isolators, Set Point Modules, Intrinsic Safety Barriers, USB Modem, & HART - Multiplexer/Gateway
- Analog & Digital Remote I/O, Ethernet TCP/IP, HART, CAN, RS232, EtherCAT, Ethernet-APL - Profinet, Profibus, & More
- Networking & Wireless Communication - 900MHz I/O, WLAN Radios, Cellular Modems Ethernet Switches, Security Routers & Firewalls I/O Systems
