

# RF, TELEMETRY, TIMING & COMMUNICATIONS LINE LIST

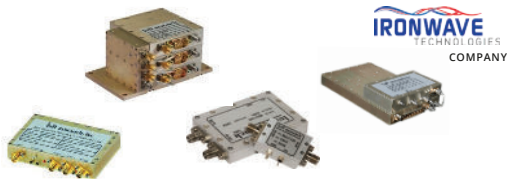

## GROUND BASED APPLICATIONS

- RF & Microwave Products for Telemetry, Telecommunication & Satellite Communication
- Multicouplers, Frequency Converters & Translators
- RF Switching & Distribution Systems
- Frequency Multipliers & Synthesizers Phase-Locked Oscillators
- Amplifiers - LNA, High-Power, AGC in the HF to Ka Bands, Rack Mountable, Weatherproof / Airborne
- RF Filters - Telemetry, Communications, Audio, Video, EMC, and Surveillance Oscillators
- Antenna Systems that Cover L, S and C bands for Communication and Telemetry Applications
- Mini-Multicouplers Portable Communication Devices

- Solid State Switches, Solid State Variable Attenuators, Detector Log Video Amplifiers
- Power Dividers
- Integrated Assemblies

- Synthesizers, Oscillators, Frequency Multipliers
- Custom - Assemblies, Configurations, Phase-Locked Ceramic Resonator Oscillator, Phase-Locked Dielectric Resonator Oscillator

- GPS Receivers (including M-Code) with Network Based & Security Hardend Features
- PNT Infrastructure Protection with the TimePictra Platform & BlueSky GNSS Firewall
- Time & Frequency Distribution, Including Over-Fiber
- Scalable Family of PTP Grandmaster Clocks
- Atomic Clocks & Bus Level Timing
- Integrated Systems for Radar, Satellite Communication & Test Range Applications

# RF, TELEMETRY, TIMING & COMMUNICATIONS LINE LIST

## GROUND BASED APPLICATIONS

**EMPOWER**  
RF SYSTEMS, INC.

- Solid-State, High-Power RF, & Microwave Amplifiers
- 10 KHz to 10 GHz Frequency Range
- Modular Designs Allow Expansion
- Module Systems
- Rack Mount Systems

**Viasat**

- High-Performance Antennas & Positioning Systems
- 2.4 to 22 meter sizes at S, C, X, Ku and Ka Band
- Low & High-Rate Modems for TT&C Payload Downlink Processing, Lab, EMC, Rugged, TVAC Semi Rugged Applications

**parraid**

- Telemetry Receivers, Signal Simulators, & Repeaters w/Telemetry Over IP & Full Real-Time Data Systems
- IMUX G2 Recorder/Reproducer w/ RAID, NAS or SAN storage, Signal I/O for PCM, Video, Analog, 1553, ARINC, Ethernet, Remote or Local Control
- G3 TMOIP Data Processing, Antenna Tracking Receivers Automated Telemetry Test Systems, Vector Iridium Data Link, NRG Everything Over IP (EoIP)

## HUBER+SUHNER

- RF & Microwave Cable Assemblies, Bend-to-the-End Cable Assemblies, Phase Invariant Cable Assemblies
- RF & Microwave & Board-to-Board Connectors
- MMPX, SMP, SMPM, SMPM-T: High Freq Connectors
- High-Speed Digital Test: MXP, MXPM, MMPX
- Test & Measurement Cables, Connectors, Adapters including TVAC and VNA Grade Cables and Connectors
- Lighting & NEMP Protection & Antenna Solutions
- RF-over-Fiber Systems, Fiber Optical Cables, Optimized for Fix or Mobile Applications at Indoor & Outdoor Areas
